MOVING NEW TECUMSETH INTO STEP 1

Today, we advance to Step 1 of the Province's [Roadmap to Reopening](#). This is welcome news for our town, and, indeed, it would not be possible without the discipline, focus and dedication demonstrated by our residents. Their ongoing efforts have brought us to this point, and now, hope is on the horizon. From the onset of the pandemic, my priority has been to ensure the health and safety of everyone who lives and works in New Tecumseth.

The COVID-19 situation is constantly evolving, and the Town of New Tecumseth will continue to take a disciplined, responsible and measured approach in our response efforts. COVID-19 case counts are going in the right direction while vaccination rates continue to rise.

However, we must not forget we are in a marathon, not a sprint. Discipline will bring us to the finish line. I remain confident that by working together and supporting each other, we will emerge stronger.

The Town is reminding residents to make safety the priority when enjoying all New Tecumseth has to offer, including using reopened park amenities and playgrounds.

We will share any updates to our programs and services, particularly in our Parks, Recreation and Culture area with our residents through our [website](#) and social media in the coming days. For a complete list of the Provincial restrictions and resources, please visit ontario.ca/COVID19.

Rick Milne, Mayor
Town of New Tecumseth
