STATEMENT FROM NEW TECUMSETH MAYOR RICK MILNE

As the coronavirus pandemic continues to evolve, we are taking active measures to ensure the safety of our community. I am calling on all in our New Tecumseth community to take precautions, practice physical distancing, maintain good hygiene and stay home if you can. I understand this is a disruption to our daily routines, however, the inconvenience pales in comparison to the potential surge and burden on our health care system.

The Town is working with our stakeholders to help assist local businesses and their employees in responding to the economic impact of COVID-19.

I am urging families to stay away from playgrounds, as difficult as this may be, we all must do our part to stop the spread of COVID-19.

Our Emergency Management Team is working with Public Health officials and closely monitoring the evolving situation around COVID-19. We have already taken immediate steps to ensure the health and safety of our community. I want to assure you that the Town's most critical services will continue onsite including fire, water and wastewater operations, road maintenance and snow removal if required, bylaw requirements and construction and building inspections.

We are all in this together and together we are stronger. I encourage everyone to get their information from reliable sources and follow the advice of medical experts. If you have concerns please visit newtecumseth.ca/covid19 for up-to-date information.

Please stay safe,

Rick Milne, Mayor
Town of New Tecumseth
