Waste collection will be maintained, but the Contractor may have to relocate the bins to a designated location. Please have your waste and recycle bins out at the end of your driveway prior to 7:00 am on your regularly scheduled pick up day so the contractor can relocate the containers as necessary to enable the recycling and garbage contractors to gain access to them. **We ask that you mark your municipal address on all bins to assist us in returning them.**

Canada Post delivery service will be maintained.
