

**GENERAL INFORMATION**

**This application form must be completed in its entirety and submitted to the Town for consideration.**

Approval of a Draft Plan of Subdivision or Condominium is required to divide a piece of land into parcels for the purpose of conveyance.

The approval process includes consideration for the location of roads, parks, schools, homes and businesses. The plan must also address servicing issues related to stormwater management, sewage treatment, water supply as well as addressing the protection of natural features such as woodlots or wetlands.

Pursuant to subsection 51(17) of the Planning Act, the applicant shall provide the Municipality such information or materials as the Municipality may require. The Municipality may refuse to accept or further consider the application until the prescribed information, material and the required fees are received. Personal information on this form is collected under the legal authority of the Planning Act, R.S.O. 1990, C.p. 13 as amended.

Complete and accurate submissions are required to ensure that the file can be processed. Incomplete or inaccurate applications will be returned to the applicant for re-submission. Except for required signature(s), answers must be typed or neatly printed in dark ink, suitable for reproduction. All sections must be completed, or marked "N/A" (not applicable), as the case may be.

**The development being proposed may also require an Official Plan Amendment and/or a Zoning By-**

## OUTLINE OF THE DRAFT PLAN OF SUBDIVISION/CONDOMINIUM REVIEW AND APPROVAL PROCESS

The following is a brief description of the process which provides information on how to ensure that the application is reviewed as efficiently as possible:

<b>Step 1</b>	<b>Application Pre-consultation</b>
<p>All applicants are encouraged to arrange a pre-consultation meeting with the Planning Department. Pre-consultation is not mandatory, but does assist the applicant in making the appropriate submission. During the pre-consultation meeting, applicants will be provided with relevant information regarding the proposal including the policies and requirements of the municipality and how they may impact the proposal. Applicants will also be advised with regard to related approvals, and other agencies that could be consulted with to gain further information.</p>	
<b>Step 2</b>	<b>Submission of Application and Initial Review</b>
<p><b>Applications will not be officially accepted until they are deemed complete.</b> It is required that six (6) copies of the application be filed with the Planning Department. When an application has been submitted, it will then be reviewed to ensure that it is complete and that all of the relevant information and fees have been submitted. The application must be accompanied by all information as prescribed in this application. If the subject property has joint ownership, signatures of all joint owners are required on the application.</p>	
<b>Step 3</b>	<b>Comprehensive Review</b>
<p>Following the initial review, and on the determination that the application is complete and accurate, a comprehensive review will take place. At this time the application will be reviewed by all relevant municipal departments and may also be reviewed by the Town's solicitor. During this process the application will also be circulated to other review agencies as applicable such as the Nottawasaga Valley Conservation Authority, the County of Simcoe, Provincial Ministries, etc. As this process takes place, applicants may be advised of additional submission requirements to address any issues which may arise.</p> <p>The comprehensive review process also includes public input. Information concerning the application will be circulated by mail to adjacent property owners and interest groups and the applicant will be required to post a sign on the property. Sign guidelines are attached to this application. It is the responsibility of the applicant to ensure that the sign is posted in accordance with the instructions attached to this application, and that the sign stays in place for the required posting period. Failure to do so will require that this process be repeated resulting in unnecessary delays to the processing of the application.</p>	
<b>Step 4</b>	<b>Public Meeting/Council Meeting</b>
<p>Following the Comprehensive review, the Planning Department will prepare a public meeting report detailing the application. The public meeting is the opportunity for anyone to voice their support or objection to the application. Following the public meeting, the application is usually referred back to staff for further consideration, and to incorporate any comments made at the meeting. The applicant may also be required to submit further information as a result of the discussion regarding the application.</p> <p>Following the public meeting, a second report will be prepared by the Planning Department addressing all comments received and addressing Planning concerns. Planning Department then makes a recommendation to adopt, refuse or defer the application. The Committee of the Whole makes a decision which must then be ratified by Council. It is advised that the applicant be present at the meeting in order to answer any questions of the Council or public. Initial approval is referred to as draft plan approval, which is subject to various conditions from the Town and other external agencies. A time period of usually 3 years is given to satisfy all conditions. Once all conditions have been satisfied, Final approval is given and registration of lots can take place.</p> <p><b>All decisions regarding the application are subject to an appeal period of 20 days during which an appeal may be filed by applicants, agencies, interest groups and/or the public to the OMB.</b> If a decision is appealed, applicants will be contacted to discuss the appeal and it's implications on the proposal.</p>
